2003, China's GDP is only 4% of World's GDP.
But, much more resources were consumed.

Resource	Petroleum	Coal	Steel	Cement
Million Tons	260	1600	250	850
% of the World Total	7.4%	31%	27%	40%

Strategies for Modernization

- **Sustainability:** National Strategy
- **Green GDP:** Pilots in next 3 years and rolling out after 2008
- **New model of Industrialization:**
Implementing Informatization to bring along Industrialization and to expedite Modernization

树立和落实科学发展观

➤ Percentage of Service in GDP

USA	World Average	India	China
76%	64%	52%	32%

- Rising the percentage of service in DGP is the only way for China to realize the modernization.

树立和落实科学发展观

➤ 2003, Internet Access Rate in china is only 6%. It has to be increased as quick as possible by

- More kinds of channels, methods and terminals
- More competition and lower price
- More and healthier Chinese content
- More efforts on training

Chance and Challenge

- China has become a big country by Industrialization in the past 50 years.
- Informatization will help China to peacefully grow up in the 21st century.

Thank you !

谢谢!
